

POPI ACT

(Protection Of Personal Information)

- At De Kuilen Primary School, we strive to create a safe environment where we manage parent, learner and educator information responsibly and aim to protect their rights to privacy. This means that we shall not **post any personal** information such as names and images without consent.
- We do, however, take pride in our learners' achievements and we want to share their accomplishments on our social platforms (i.e. DKPS website, D6 App, Facebook, Instagram and local newspapers).
- Learner achievements include, but are not limited to, quarterly merit lists, announcements of school monitors and council of learners, provincial colours, cultural activities, Eisteddfod achievements, etc.
- We are also very excited to mention that 2024 is our concert year. It is crucial for parents to understand that if your child participates in the school concert, he/she will be recorded, and the concert will be available for download or on DVD.
- During the course of the week, you will receive the POPIA consent forms to read and sign. If you do not wish for your child/ren to be filmed, photographed during school or sport events, please note that unfortunately they will not be allowed to participate in the concert, as this will be recorded.
